One-Year Planning Grid for entering the job market

JOB MARKET GOAL
I want to be a web developer for a company that creates a website.

THEIR FEAR
- Worry   - Scared   - No confidence   - The fear of failure at work

INTERNAL SOLUTION(myself)	EXTERNAL SOLUTION(PNC)
- Have self-confidence - Motivation - Build self-confidence - Han faces challenges - Build relationships with senior - Find out more about school lessons - Get more involved in school - review about the lesson I don't understand - Try to understand the homework of the teacher in all the subjects.	- Find out from each company whether it is relevant to the lessons we are learning. - Participate in IT-related programs - Ask senior for work experience - Have a work plan - Must be able to control the mind

TIMELINE	Description
Feb-2024_ Apr-2024	- Improve relationships between friends and Junior - improve English speaking skills, grammar, writing, and listening - research more about PHP and JavaScript - Have a project (VC1) that I think I can do it. - improve for my speaking skills - research about node.JS
